

Annex 7 Courses and hours of safety and health education and trainings specified for supervisors in charge of high-pressure gas operations

I. Courses and hours of safety and health education and trainings specified for safety supervisors of high-pressure gas production (22 hours)

No.	Course Name	Hour(s)
1	Laws and regulations relevant to labor safety and health in high-pressure gas production	3 hours
2.	Introduction to high-pressure gases	3 hours
3.	Categories and installations of high-pressure gas production	6 hours
4	Safety devices of high-pressure gas production equipment and use thereof	2 hours
5	Troubleshooting and handling of high-pressure gas production equipment	3 hours
6	Management and implementation of high-pressure gas production safety technology	3 hours
7	High-pressure gas operational accidents and prevention practicum	2 hours

II. Courses and hours of safety and health education and trainings specified for safety operation supervisors of high-pressure gas production (21 hours)

No.	Course Name	Hour(s)
1	Laws and regulations relevant to labor safety and health in high-pressure gas production	3 hours
2.	Introduction to high-pressure gases	3 hours
3.	High-pressure gas production equipment	3 hours
4	Equipment management standards and contract management standards for high-pressure gas production	3 hours
5	Troubleshooting and handling of high-pressure gas production equipment	3 hours

6	Safety operation standards and procedure improvement for high-pressure gas production	3 hours
7	Safety management and implementation of high-pressure gas production	3 hours (including 2 hours of practicum)

III. Courses and hours of safety and health education and trainings
specified for operation supervisors in charge of high-pressure gas
supply and consumption (21 hours)

No.	Course Name	Hour(s)
1	Laws and regulations relevant to labor safety and health in high-pressure gas production and consumption	3 hours
2.	Introduction to high-pressure gases	3 hours
3.	High-pressure gas supply and consumption installations	3 hours
4	Safety operation standards and procedure improvement for high-pressure gas supply and consumption	3 hours
5	Equipment management standards for high-pressure gas supply and consumption	3 hours
6	Troubleshooting and handling of high-pressure gas equipment for supply and consumption	3 hours
7	Safety management and implementation of high-pressure gas supply and consumption	3 hours (including 2 hours of practicum)
