Any other medical need which requires to be noted.</p>		
--	---	--	--

Note:

1. Items 1 to 4, and 7 of the basic information appear on the front of an NHI IC Card.
2. The symbol ◎ denotes to medical records which are keyed in by the contracted medical care institutions while data without the symbol is keyed in by the insurer. The symbol ★ denotes to medical records which need to be accessed by the contracted medical care institutions with the IC card for medical institutions and medical personnel. Beneficiaries may retrieve all data set forth in the table at a NHI IC Card reader installed in the regional branch offices and liaison offices of the insurer.
3. Where a beneficiary pays a medical visit due to mental illness, human immunodeficiency virus or sexual assault, his or her medical records should not be keyed in upon the patient's request.
4. For items 5 to 8 of the medical service data, the insurer may, after considering the storage capacity of an NHI IC Card or the time required for the production of medical records, request a contracted medical care institution to upload the data of medical records to the insurer.
