

Appendix 4

Table of Standard of Co-use Pipeline Maintenance Charges

Co-use Pipeline Maintenance Charges (New Taiwan Dollar/NT\$)

Formula for Calculation:

$$\text{Annual Charges (NT\$/Year} \cdot \text{Meter)} = \text{Annual Total Maintenance Charges (NT\$)} \div$$
$$\text{Total Length (Meter)} \times \text{Used Space (Ratio of Cross-Section Areas)}$$

Note:

1. The Administration shall collect co-use pipeline maintenance charges from pipeline organizations (institutions) which utilize the co-use pipelines in the Parks.
2. Annual Total Maintenance Charges: The calculation of co-use pipeline operation administration fees is to average necessary charges for the last three years of the base year of the application. In the event that there is no information on charges for the last three years of the year of the completion of pipeline construction, the Administration shall estimate necessary charges on the basis of the actual situations.
3. Total Length: Total length of co-use pipelines installed in this Park.
4. Used Space (Ratio of Cross-Section Area): The ratio of the cross-section area of the space used by each pipeline in the co-use pipelines over the cross-section area of the clear space in the co-use pipelines.
