

Appendix 6: Supplementary information required for priority management chemicals operating report

1. Operator Information
  - Name of operator
  - Name and telephone number of the contact person and the job position
  - Email
2. Chemical Information
  - Name of chemicals
  - Hazardous ingredients
  - Concentration (% of the content)
  - Maximum aggregate operating quantity
  - Hazards classifications
  - Safety Data Sheet
3. Operating and Exposure Information
  - Production process
  - Purposes of usages
  - Physical state of chemicals
  - Concentration of hazardous ingredient used during production process
  - Dustiness/evaporation
  - Daily average operating hours
  - Ventilation equipment
  - Respiratory protection, skin protection, hand protection
  - Results of chemical exposure assessment by qualitative, semi-quantitative or quantitative methods
4. Other operating information designated by the central competent authority
