

# Attached table, pollution control equipment operating record items

Name of pollution control equipment	Record frequency	Record item
Acid/alkali washing and absorption facility	Every day	Washing tank washing cycle water volume, pH value
Water washing and absorption facility	Every day	Washing tank washing cycle water volume, wastewater discharge flow
Condensing facility	Per month	Condensate volume
	Every day	Gas outlet temperature, condensing agent outlet temperature
Adsorption facility	Every day	Operating temperature
	Replacement cycle	Adsorbent replacement date, replaced volume
Biological treatment facility	Every day	Inlet temperature, outlet relative humidity
Thermal incinerator	Every day	Combustion temperature
Catalytic incinerator	Every day	Catalytic bed inlet and outlet gas temperature
Other pollution control equipment	Every day	Chief operating parameters
