

Illustrations of the Science Profession Medal

I. The medals are to be conferred on _____, 20____, with all accolades to be pinned onto the lapel and hanging on silk ribbons.

II. Medal Specifications:

The medal is to be 5.8 cm in diameter.

III. Meaning of the Design:

The medal is composed of three concentric circles, designated as the outer circle, the middle circle, and the upper lid. The golden rays in the outer circle represent the radiance of cutting-edge technology, beaming brilliantly. The red rays interlaced with blue in the middle circle symbolize the National Science Council's emphasis to drive exploration of nature, innovation in technology, and a culture of excellence, thus ensuring the continued prosperity of Taiwan. The green letter "S" in the center inset represents the National Science Council and signifies the honor to the award recipient for his/her special contribution to the scientific field of the nation.
