

Attachment table: the maximum prices of analog set-top box with addressable decoder function

Charge Usage method	Maximum price	Proviso
Buy out	The selling price of the system operator shall not exceed the market price.	<ol style="list-style-type: none"> 1. If the system operator changes its terminal encoding technology or equipment which leads the original analog set-top box with addressable decoder function to no longer work, he or she shall replace the original one with a new set-top box with addressable decoder function to the subscribers who bought out the set-top box within three years. 2. If the reason that the analog set-top box with addressable decoder function needs maintenance is due to the misuse of the subscriber, the system operator shall calculate the maintenance fee by the number of hours worked; the fee shall not exceed NTD\$200 per hour, and the material cost is calculated apart from this. 3. When the original attached remote-controller is replaced, the price of each new one shall not exceed NTD\$500.
Lease	<ol style="list-style-type: none"> 1. Deposit: the deposit shall not exceed 30% of the price of the model provided by the system operator. 2. Rent: monthly rent shall not exceed 4% of the price of the model provided by the system operator. 	<ol style="list-style-type: none"> 1. If the subscriber terminates the contract within two years since the starting date, the system operator shall return the deposit without interest to the subscriber, and the subscriber shall return the borrowed analog set-top box with addressable decoder function to the system operator. If there is any damage on the analog set-top box with addressable decoder function mentioned in the previous paragraph which is due to the misuse of the subscriber, the subscriber shall be held responsible for that damage. 2. If the subscriber has paid the rental fee for two full years and has renewed the lease, the monthly rent shall be deducted from the original paid deposit. From the date when the original paid deposit is deducted in full, the ownership of that analog set-top box with addressable decoder function shall belong to the subscriber; if the subscriber terminates the contract before the original paid deposit is deducted in full, then the system operator shall return the rest of the deposit without interest to the subscriber, and the subscriber shall return the analog set-top box with addressable decoder function to the system operator. 3. If the reason that the analog set-top box with addressable decoder function needs maintenance is due to the misuse of the subscriber, the system operator shall calculate the maintenance fee by the number of hours worked; the fee shall not exceed NTD\$200 per hour, and the material cost is calculated apart from this. 4. When the original attached remote-controller is replaced, the price of each new one shall not exceed NTD\$500.
Lend with deposit	Deposit shall not exceed 1.7 times the price of the model provided by the system operator.	<ol style="list-style-type: none"> 1. When the subscriber returns the borrowed analog set-top box with addressable decoder function, the system operator shall also return the deposit without interest to the subscriber. If there is any damage on the analog set-top box with addressable decoder function mentioned in the previous paragraph which is due to the misuse of the subscriber, the subscriber shall be held responsible for that damage. 2. If the reason that the analog set-top box with addressable decoder function needs maintenance is due to the misuse of the subscriber, the system operator shall calculate the maintenance fee by the number of hours worked; the fee shall not exceed NTD\$200 per hour, and the material cost is calculated apart from this. 3. When the original attached remote-controller is replaced, the price of each new one shall not exceed NTD\$500.
Subscriber-owned set-top box	<ol style="list-style-type: none"> 1. Original subscriber set-up fee: once per household (includes setting up multiple boxes at the same time) shall not exceed NTD \$500. 2. New subscriber set-up fee: during installation, if the analog set-top box with addressable decoder function is also applied, the set-up fee shall be exempted (includes set up). 	If the subscriber owns the analog set-top box with addressable decoder function, and requires repair service from the system operator for the box, the system operator shall calculate the maintenance fee by the number of hours worked; the fee shall not exceed NTD\$200 per hour, and the material cost is calculated apart from this.
Lend without charge	If the system operator lend analog set-top box with addressable decoder function to subscriber without charge, he or she shall also install, set up and maintain the box without charge.	When the contract is terminated, the subscriber shall return the analog set-top box with addressable decoder function; if there is any damage on the box which is due to the misuse of the subscriber, the subscriber shall be held responsible for that damage.
Gift	If the system operator gifts subscriber the analog set-top box with addressable decoder function, he or she shall also install, set up and maintain the box without charge.
