

Appendix 15

The conversion factors between the weights of processed fish and round fish

Formula: round weight =
the weight of processed fish × the conversion factor

Species	Processing methods	Conversion Factors
Bigeye tuna and Yellowfin tuna	Gilled and gutted (GG)	1.13
	Gilled, gutted, and headed (DR/HDD)	1.43
Swordfish	Gilled, gutted, headed and tailed	1.3
Blue marlin, white marlin, and longbill spearfish	Gilled, gutted, headed and tailed	1.2
Sharks	Headed and gutted, (DR)	1.54
