

**Attachment Chart 1 Environmental Impact Assessment Review and Division of Labor
of the Competent Authority in Supervision**

Type of Development Activity	Environmental Impact Assessment Review and f the Competent Authority in Supervision	
	Central Competent Authority	Competent Authority of Municipality or County (City)
1. Establishment of factory	State-owned factory	Non-State-Owned factory
2. Development of industry zone	Industry zone with development area of over 30 hectares	Less than 30 hectares of development area of industry zone
3. Development of roads	(1) National and provincial highways (2) Roads connecting 2 or more municipalities and counties (cities)	Roads in cities, counties, districts, rural areas, and urban areas, and other roads in municipalities and counties (cities)
4. Development of railway	Railway	
5. Development of mass rapid transit system	Mass rapid transit system	
6. Development of harbors and ports	Commercial, naval, fishing, industry-specific and yacht harbor	
7. Development of airports	Airports	
8. Quarrying		(1) Quarrying (2) Aggregate processing plants (3) Ceramics soil taking
9. Prospecting and mining	Prospecting and mining	
10. Development of reservoirs	(1) Reservoir works (2) Cross-region water diversion projects	
11. Development of water supply, pumping or diversion	(1) Water pumping or diversion projects covering more than 2 municipalities and counties (cities) (2) State-owned water works (3) Water treatment plant for industrial use (4) Desalination plant engineering	(1) Water pumping or diversion engineering inside the municipalities and counties (cities) (2) Water supply works not run by state-owned facilities (3) Water treatment plants not exclusively for industrial use
12. Development of flood control and sewage system	(1) Diversion of water flow from rivers and waterway under state control and dredging works (2) Flood control and sewage system or detention basin covering more	(1) Diversion of water from rivers and waterways and dredging works in municipalities and counties (cities) (2) Flood control works and detention basin construction projects under

	than 2 municipalities, counties (cities)	the jurisdiction of the municipalities and counties (cities)
13. Development of plantation, forestry, fishery and livestock farmland for pleasure farmhouses or processing of produce		Farmhouses as leisure farms and processing of produce
14. Forestry and lumbering	Lumbering in state-owned forest	Lumbering in state-owned or private forest
15. Development of coastal aquaculture area or fishing ponds		Coastal aquaculture facilities or fishing ponds
16. Development of livestock farmland and animal farms		Animal farms
17. Development of amusement parks and zoos	Amusement park located in national park or scenic area	(1) Amusement Park not located in national park or scenic area (2) Zoo
18. Development of amusement facilities in forest parks	In state-owned forest	In public or private forest
19. Development of hotels and tourist hotels	In national parks, wild animal conservation zones or inhabitation zones, key wetlands, natural conservation zones or general protection zones approved under the costal conservation program of Taiwan, national scenic parks or national forest amusement zone	Not located at national parks, wild animal conservation zones or inhabitation zones, key wetlands, natural conservation zones or general protection zones approved under the costal conservation program of Taiwan, national scenic parks or national forest amusement zone
20. Development of golf courses, playgrounds or sports park	Golf course	Playgrounds or sports park
21. Development of cultural and educational facilities	Research facilities or universities in national parks, wild animal conservation zones or inhabitation zones, key wetlands, natural conservation zones or general protection zones approved under the costal conservation program of	(1) Further to Research facilities or universities in national parks, wild animal conservation zones or inhabitation zones, key wetlands, natural conservation zones or general protection zones approved under the costal conservation

	Taiwan, national scenic parks or national forest amusement zone	<p>program of Taiwan, national scenic parks or national forest amusement zone, other cultural, educational, training, study or research facilities</p> <p>(2) Animal farms affiliated with education or research institutions</p> <p>(3) Research facilities outside schools or hospitals</p> <p>(4) Religious temples and churches</p>
22. Development of medical facilities, nursing facilities, and social welfare institutions		<p>(1) Hospitals</p> <p>(2) Nursing facilities, welfare institutions for the care of the elderly or long-term care</p>
23. Development of new urban construction	New urban areas	Collective residence or community
24. Development of high-rise building		Construction of high-rise buildings
25. Development of urban renewal		Urban renewal
26. Construction of environmental protection project	<p>(1) General waste or general industrial waste recycling agency</p> <p>(2) Intermediate or final treatment facility by recycling, incineration, landfill or other ways which is also the waste cleaning and treatment facility consulted and set up by central industry competent authority or jointly cleaning and treatment agency approved by central industry competent authority</p> <p>(3) Organic sludge, sludge mixture or hazardous industrial waste recycling agency</p>	<p>(1) Slurry treatment plant</p> <p>(2) Sewer project</p> <p>(3) Manure field</p> <p>(4) Waste transfer station</p> <p>(5) Landfill site or incinerator for dumps (excluding hazardous industrial waste)</p> <p>(6) Waste treatment plant by ways other than incineration, landfill, compost or recycling (excluding the treatment plant for hazardous industrial waste)</p> <p>(7) Garbage sorting field of general waste</p> <p>(8) Intermediate or final treatment facility by recycling, incineration, landfill or other ways which is also not the waste cleaning and treatment facility consulted and set up by central industry competent authority or jointly cleaning and treatment agency approved by central industry competent</p>

		<p>authority</p> <p>(9) Mixed metal scrap treatment plant or facility by physical method</p> <p>(10) Construction residual soil treatment plant such as spoil ground and deposit area, construction mixture sorting field or decoration and repairs waste sorting and treatment plant</p>
27. Development of energy or power supply projects	<p>(1) Decommissioning of nuclear plants and nuclear reactor facilities</p> <p>(2) Hydroelectric power plant</p> <p>(3) Thermal power plant</p> <p>(4) Regenerate energy supply like wind power, photovoltaic, tidal, sea current, wave, temperature and geothermal power</p> <p>(5) Power transmission route projects</p> <p>(6) Maritime power transforming station or land-based power transforming station at voltage of higher than 161Kilo volt</p>	Facilities of thermal power stations for self-consumption or cogeneration power plant
28. Development of the storage and treatment facilities of radioactive substances	Storage and treatment facilities of radioactive substances	
29. Development of industrial-commercial complex or big shopping malls		Industrial-commercial complex or big shopping malls
30. Development of exhibition venue (hall), expo or convention center		Exhibition venue (hall), expo or convention center
31. Development of funeral and burial facilities		<p>(1) Public cemetery</p> <p>(2) Funeral parlors, urn (remains) depository sites</p> <p>(3) Cremation site</p>
32. Development of slaughter house		Slaughter house
33. Development of animal shelter		Animal shelter
34. Development of	(1) LPG receiver stations (ports)	Petroleum, petroleum products storage

natural gas or oil products pipeline and storage tanks	(2) Natural gas or oil pipeline projects	tanks or natural gas storage tanks
35. Development of military zones, coastal (maritime) patrol zone, missile test site, shooting range or radar stations	Military zones, coastal (maritime) patrol zone, missile test site, shooting range or radar stations	
36. Development of cable cars	Cable cars	
37. Development of correctional facilities, public security disciplinary facilities, or other detention and correctional facilities	Correctional facilities, public security disciplinary facilities, or other detention and correctional facilities	
38. Development of deep sea water	Development of deep sea water	
39. Development of meteorological facilities	(1) Weather radar stations (2) Installation of stationary observation centers for monitoring weather, maritime condition or earthquake along the coast line	
40. Other development projects as announced by the central competent authority	(1) Construction or expansion of artificial islands (2) Creation of land by building embankment along the coast line with landfill (3) Construction or expansion of the national launch center	(1) Underground street projects (2) The application for the installation of cement storage facilities in port areas (3) Camp sites (4) Other development in the municipalities, counties (cities)
