

Appendix 5: Form for operating information of the priority management chemicals

I. Chemical Identification (note 1)			
Chemical Name			
Hazard Classification (note 2)			
Hazardous Ingredients			
Name of hazardous ingredients in Chinese	Name of hazardous ingredients in English	CAS No	Concentration/ % of the content
II. Actual Operating Information			
Physical state	<input type="checkbox"/> Solid <input type="checkbox"/> Liquid <input type="checkbox"/> Gas <input type="checkbox"/> Other____		
Purposes of Usages			
Maximum aggregate operating quantity (note 2)	Amount(note 4)	Operating Activity	
		<input type="checkbox"/> Manufacturing <input type="checkbox"/> Importing <input type="checkbox"/> Supplying <input type="checkbox"/> Providing for workers to handle or use	
Annual aggregate operating quantity (note 3)	Amount(note 4)	Operating Activity	
		<input type="checkbox"/> Manufacturing <input type="checkbox"/> Importing <input type="checkbox"/> Supplying <input type="checkbox"/> Providing for workers to handle or use	
Number of workers	_____	Among the workers exposed,	

exposed to chemicals		as specified in the left: <input type="checkbox"/> the number of female works <input type="checkbox"/> the number of workers under age of 18 (note 5)
----------------------	--	---

Note:

1. The hazardous ingredients of chemical identification may be limited to the items listed by Article 2 of these Regulations.
2. The maximum aggregate operating quantity for the period from July to December of the previous year must be reported in January each year; the maximum aggregate operating quantity for the period from January to June of the current year must be reported in July each year. If it is not the priority chemical prescribe by Subparagraph 3, Article 2 of these Regulations, leave this box in blank.
3. If it is the priority chemical prescribe by Subparagraph 1 and Subparagraph 2 of Article 2 of these Regulations, fill in this box with the maximum annual aggregate quantity for the preceding calendar year of the chemical presented in any operating activity.
4. The unit to measure the maximum aggregate operating quantity and the annual aggregate operating quantity in weight can be gram, kilogram, metric ton.
5. If it is not a chemical specified in Subparagraph 1, Article 2 of these Regulations (Appendix 1), leave this box in blank.
