

法規名稱：(終)ADDENDUM TO THE APPENDM NO.2 A COLLABORATIVE RESEARCH ARRANGEMENT IN TELECOMMUNICATIONS SCIENCES UNDER THE GUIDELINES FOR COOPERATIVE PROGRAM IN THE PHYSICAL SCIENCES BETWEEN THE COORDINATION COUNCIL FOR NORTH AMERICAN AFFAIRS AND THE AMERICAN INSTITUTE IN TAIWAN (AD.1994.11.02)

終止日期：民國 87 年 12 月 09 日

First Implementation Phase

This Addendum identifies the means by which the Telecommunications Laboratories in Taiwan (TL) and the Computer Systems Laboratory (CSL) of the National Institute of Standards and Technology (NIST), through the Taipei Economic and Cultural Representative Office in the United States (TECRO), formerly known as the Coordination Council for North American Affairs and the American Institute in Taiwan (AIT), will implement their collaboration during the Transaction Processing (TP) Initiative, and tackles the issues related to the project management and monetary support. This Addendum refers to Appendix No.2 of the Guidelines.

Transaction Processing Initiative

TL will provide technical support via two guest workers. These two guest workers will work at NIST for one full year and, under the supervision of the project leader, will contribute to the Transaction Processing Initiative. Two months after the Addendum is signed, the project leader will provide to TL an updated TP initiative management plan. The project leader will work with TL technical experts to facilitate a better understanding of the project deliverables and their installation at TL. Expanded deliverables include two cooperative products: (1) an implementation of the COS/POSI/SPAG (CPS) Technical Framework Specification and (2) a TP Means of Testing for a selected subset of the TP abstract test suite, and a Tree and Tabular Combined Notation ('ITCN') to Estelle and C++ translator. CSL will also provide a copy of the full TP abstract test suite when this document is provided to the Government Open Systems Interconnection Profile (GOSIP) Testing Program.

AIT (NIST/CSL) will provide the Transaction Set Development Sys-

tem (TSDS) EDI tool to TECRO (DGT/TL) at the time legal and technical work is substantially completed.

Payment

TECRO will provide monetary support which amounts to US\$200,000. The monetary support consists of US\$178,400 provided to AIT and US\$21,600 for subsistence expenses of visiting Taiwan guest researchers.
