Delegates of the Republic of Korea and the Republic of China, Zed respectively by Mr. Kap-Taek Kwon, Director General, Technology Cooperation Bureau, Ministry of Science and Technology, Republic of Korea, and Prof. Shih Hung-Chih, Director General, Division of International Programs, National Science Council, Republic of China. After thorough discussion at the Conference room of the National Science Council from 11:00 AM to 15:00 PM have reached an agreement which follows:

- 1) In order to ensure the high quality of technical papers raised at the bilateral symposia/workshops, symposia/ workshops Coordinator of the host party have to submit preliminary proposal to the administrative organization (in the Republic of Korea, it is Ministry of Science and Technology, in the Republic of China, it is National Science Council) at least six months in advance of the holding of the meeting.

Participants qualification and their papers quality should be screened by the screening Committee of both MOST of the Republic of Korea and the NSC of the Republic of China.

- 2) Detail program of the symposia/workshops should be submitted by the host coordinator, through his administrative organization to its counterpart at least six weeks in advance to permit adequate time for notification and preparations.

3) There are 13 proposals for bilateral symposia/workshops and 12 proposals for institutional cooperation raised by both parties, they have been thoroughly discussed. It is generally agreed that those proposals with dates and counterparts fixed, budgets granted, proposals reviewed and approved are given the first priority which will be listed on the status report and reviewed at the next session.

Otherwise, they will be given the 2nd priority. Proposals for holding bilateral symposia/workshops being granted the first priority include:

1. Catalysis Symposium
2. Telecommunication Technology Seminar
3. Oceanographic Science Workshop
4. Solid State Physics Symposium
5. Advanced Materials Technology Symposium
6. Pharmaceutical Technology Seminar

Proposals for institutional cooperation being granted the first priority include:

1. Standardization and Measurement Science
2. Scientific and Technological Information
3. Production Certification of Aircrafts and Their Parts
4. Nuclear Safety
5. Services and Technology Cooperation in Meteorology
6. Catalysis

7. Plant Cell and Tissue Cultures

8. Exchange of Methods and Experience in Collecting Data of S-PT Activities

9. Theoretical Physics

10. Pesticide Safety

Those being granted the second priority are Genetic Engineering and Livestock Science .

4. Program of exchange visit remains unchanged. The number of visitors will be 30 each year from each side (15 for study tours, 15 for workshops.) Perdiem remains the same with each visit not exceed two weeks.
