

## Application for Operating License of a Nuclear Reactor

Name of applicant: \_\_\_\_\_ Correspondence address: \_\_\_\_\_

Date of application: \_\_\_ DD \_\_\_ MM \_\_\_ YY

1. Basic information:

(Please fill in this column if there is any difference found in the application for the plant construction license.)

2. Brief status of plant construction for the nuclear reactor (including if there is any unfinished items)

3. Expected date for fuel loading: \_\_\_ DD \_\_\_ MM \_\_\_ YY

4. Expected date for critical operation: \_\_\_ DD \_\_\_ MM \_\_\_ YY

5. Expected low-power operation (lower than full power) period: from \_\_\_ DD \_\_\_ MM \_\_\_ YY to \_\_\_ DD \_\_\_ MM \_\_\_ YY

6. Expected date of first high-power operation: \_\_\_ DD \_\_\_ MM \_\_\_ YY

Amount of power

Expected date

10% of full power

20% of full power

50% of full power

Full power operation

Full power operation

7. Application deadline of operation: from \_\_\_ DD \_\_\_ MM \_\_\_ YY to \_\_\_ DD \_\_\_ MM \_\_\_ YY, totaling \_\_\_ MMs \_\_\_ YYs

8. Attached materials

1. Final Safety Analysis Report

2. Supplementary technical information and Limited Operating Conditions (LCO)

3. Information on prevention leakage of radioactive material

4. Financial guarantee information on implementation of operation task

(If there is classified confidential information, it should be delivered respectively.)

The applicant guarantees that the content of this application and any attached materials are authentic, and should there be any falsehood found, the applicant is to accept the related punishment of the laws by the Atomic Energy Council.
